With over 25 years' professional aesthetic experience,
Celebrity Permanent Makeup Artist and Level 7 Aesthetics
Practitioner Tracie Giles heads up a small, select team
of internationally acclaimed world-class technicians to
deliver to you the absolute best that the industry has to
offer from the heart of London's exclusive Knightsbridge.

As Seen In

The Telegraph COSMOPOLITAN HOUSE AND THOUSE AND THE COSMOPOLITAN HOUSE AND

As a Global Centre of Excellence for Permanent Makeup and world-leaders in Advanced Aesthetics, the Tracie Giles London Team work to a proven standard of distinction and are trained extensively in the 'Tracie Giles Method' using her exclusive treatments, techniques, and tools.

All of our Artists have either been trained by Tracie herself or have joined the clinic with extensive experience from all over the world. When booking a treatment at Tracie Giles London you can be assured that you will receive superb standards and results with every member of our team.

MY LIFE'S WORK HAS BEEN TO STUDY
THE FACE AND TO CREATE SYMMETRY
AND BEAUTY. MY PASSION IS TO
TRANSFORM EACH INDIVIDUAL INTO
THE MOST BEAUTIFUL, POWERFUL
VERSION OF THEMSELVES.

TRACIE GILES

Their individual treatment prices are reflective of their specific expertise in this area, but all Artists in the team must already work to a set standard of excellence before being chosen to work at Tracie Giles Knightsbridge and are undoubtedly some of the best Permanent Makeup Artists worldwide.

Artist Levels

- Tracie Giles
- Director
- Elite Plus
- Elite

Tiny dots of pure, hypo-allergenic pigment are inserted into the skin using a digital tattooing device (or a small handheld blade known as a Microblade for Microbladed Brows) to create a range of different brow, eyeliner or lip blush effects.

Permanent Makeup can also be used for medical camouflage and correction effects including areola reconstruction.

With an expert hand and the very best products we can achieve truly outstanding, long-lasting make up effects to suit each of our clients' individual needs - all in an environment of elegance and luxury.

Never Underestimate the Power of the Brow

Tracie Giles London offers the most comprehensive choice of Permanent Makeup eyebrow techniques available and the results that are achievable are utterly flawless and can totally transform your look, whether you already have natural brow hair or absolutely none at all.

3D Hairstroke Brows

The original 3D Hairstroke Brows, exclusively developed and performed by the Tracie Giles London team, are the perfect choice for clients wanting a super natural result. This treatment draws individual hairs into the skin that mimic real eyebrow hairs, weaving simulated hairstrokes amongst your natural hairs in a bespoke pigment blend to lift, define and WOW your brows.

If you are looking for something a little more striking or usually fill your brows in with conventional makeup, Powder or Ombré Brows are a great choice. Our Artists use a specialised shading technique to create a mist of colour across the full brow. For Powder Brows we use one consistent colour through the whole brow, for Ombré Brows we create a gradient effect.

Microbladed Brows

The Microblading technique was first discovered thousands of years ago, with Artists using a super fine microblade to etch lines into the skin that flow in the same direction as your own hairs. This is the ideal brow look if you want an extra natural and soft effect with the pigment being placed into a higher layer of

Often our clients suit a combination of different brow techniques. For the Combo Brow we create something totally bespoke, combining beautiful, natural hairstrokes with some shading effects. We can discuss with you what you want to achieve and use our expertise to determine which will be the best technique for you.

Hyper-Realism Brows

Only available at a handful of clinics worldwide, Hyper-Realism Brows are created using a highly specialised, advanced tattooing technique to create super realistic, natural-looking brows. Rather than tattooing individual hairstrokes into the skin (like with our signature 3D Hairstroke Brows), our Artists tattoo wispy, overlapping hairstokes in a unique pattern to mimic the natural movement and direction of real eyebrow hairs, creating a hyperrealistic 3D effect. Less polished than some of our other brow options, this is the perfect choice for those wanting the fuller, fluffier brows that are on-trend right now.

Eyeliner

Enhance & Define Your Eyes

> An expertly applied Eyeliner Tattoo is the perfect solution to thicker, darker lashes and more defined eyes, giving you a professional make up result that stays put and doesn't need to be removed every night or carefully 'matched up' every morning. Our permanent eyeliner treatments can be applied to the top, bottom or both eyelids, and with a range of eyeliner styles available – from the super subtle Lash Enhancing Eyeliner to a dramatic smokey Whipshaded Eyeliner - you can customise your look to suit your style.

Lash Enhancing Eyeliner

The Lash Enhancing Eyeliner is our most subtle eyeliner, helping to create fuller and thicker-looking lashes and enhance your eyes. This is a thin, delicate eyeliner dotted along the lash line to create beautiful, naturally defined eyes. A great choice if you don't usually wear conventional eye makeup.

Permanent Eyeliner

This is the perfect choice for those wanting something a little more defined than the Lash Enhancing Eyeliner, but still want super subtle results. A standard Permanent Eyeliner is a thin eyeliner and unlike the Lash Enhancing Eyeliner can have a small flick on the upper eyelid.

Liquid-Look-Liner

The classic Liquid-Look-Liner creates a defined and thicker eyeliner. This eyeliner resembles the look achieved with a conventional liquid eyeliner but removes the hassle of trying to balance your eyeliner flicks. Wake up with beautiful, symmetrical eyeliner every single day.

Whipshaded Eyeliner

As subtle or dramatic as you like, Whipshaded Eyeliner is the ultimate choice for wide awake, smokey eyes that remain perfectly even all day, every day. Whipshading is a very advanced technique and only available at a handful of clinics worldwide (including Tracie Giles London!)

The Secret on Everyone's Lips

Our Lip Blush treatment is about making your lips even, creating the illusion of volume and ensuring that the colour stays put in any situation so that all you need to do is add a dab of lip gloss and you're ready to go!

Giles London, the Gloss & Go™ Lip Blush treatment is the perfect way to restore the shape and fullness lost with age and transform thin or uneven lips.

For the ultimate Permanent Makeup experience, the Diamond Package is your answer to totally enhancing your natural beauty.

Our expert team of Artists will work with you to redesign your brows, define your eyes and perfect your pout, with a brow treatment, eyeliner treatment and Gloss & Go™ Lip Blush treatment – all completely bespoke and uniquely you!

By booking these three treatments together you will benefit from a 10% discount.

THE GLOSS & GO LIPS ARE THE BEST THING I HAVE EVER DONE! IT MAKES THEM LOOK SO MUCH FULLER AND THEY HAVE LASTED SO LONG. BEST TREATMENT EVER, I CAN'T WAIT TO COME BACK IN!

VOGUE WILLIAMS. MODEL & MEDIA PERSONALITY

Whilst Permanent Makeup is most often known as a method of enhancing brows, eyeliners and lips, the same techniques can be used for medical & correctional tattooing, namely to alleviate the hair-loss effect of chemotherapy and alopecia, restore the areola following breast surgery, to camouflage scars, including cleft lip scarring, or to treat vitiligo.

Special Offer

A 10% discount

is offered on all medical & correctional tattooing for those suffering from Alopecia, undergoing chemotherapy or recovering from breast cancer.

A doctor's letter of permission will be required.

Alopecia

Alopecia is a devastating autoimmune disorder affecting many men and women throughout the world resulting in hair loss on part or all of their bodies. We are able to use our brow and eyeliner treatments to alleviate the effects of hair-loss, cheating the appearance of natural eyebrows and lash lines to boost confidence. Tracie Giles is registered with Alopecia UK.

Chemotherapy Related Hair-Loss

Pre-chemotherapy we can capture the appearance of the patient's natural brows and lashes in order to recreate them if necessary, giving patients back some control at a difficult and distressing time in their lives, and helping them to feel more positive about the traumatic experience of chemotherapy. These treatments can be performed before, during and after chemotherapy.

Reconstruction

Permanent Makeup can be the final step back to normality after most kinds of breast surgery (reconstruction, augmentation or post-breast cancer), by using cosmetic tattooing to restore the areola and camouflage scarring. An areola and/or nipple can be tattooed in a colour to closely match the patient's own, creating 3-Dimensional, realistic and natural looking results.

Remove, Repair and Replace Bad Brows

With Permanent Makeup now so widely available in the UK and with the industry being largely unregulated, we are increasingly seeing more and more clients needing removal or correction for work undertaken by other clinics and salons.

We are the UK's only clinic to offer a multi-disciplinary Permanent Makeup lightening and removal service either by our specialist British-built laser or liquid 'fadeup' solution depending on skin type, colour of pigment and depth of placement. Once the unwanted pigment is removed, we are able to give our clients brand new brows by our world champion Artists on a blank canvas. Sometimes it's simply not possible to remove the pigment totally but by choosing Tracie Giles London you can be assured that you are giving yourself the very best chance of success.

This Service Is For You If...

- You have old PMU, stained and saturated brows
- You have botched brows from elsewhere
- You have brow regrets
- Your brows are the wrong colour or an undesirable colour (such as red/blue/grey)
- You simply want to change the shape of your existing PMU since preferences and trends change and facial ageing means that adaptations need to be made

Love Island's Sharon Gaffka's brows

Permanent Makeup Removal

after just one removal session!

THE PROCESS

- 1. A bespoke detailed consultation to make a brow removal plan whether it is total removal or removal and replacing - including a patch test
- 2. A course of removal that can be paid for separately or booked as a course
- 3. 20% off new brows in the Tracie Giles London clinic

IT'S NOT ALL ABOUT BROWS...

We also remove, repair and replace bad eyeliners, lip tattooing and body tattoos based on consultation using our multidisciplinary approach and what is best for you.

THERE IS NOT A 'ONE-SIZE-FITS-ALL' APPROACH TO THE LIGHTENING, CORRECTION OR REMOVAL OF UNWANTED PIGMENT AND WE WILL UTILISE WHATEVER MODALITY OR METHOD IS JUDGED TO WORK THE BEST FOR EACH INDIVIDUAL CASE.

TRACIE GILES

Aesthetic

and Microblading Artists in the world today.

WHEN PERFORMED BY AN EXPERT PRACTITIONER, THE POWER OF AESTHETIC TREATMENTS - BOTH ON THEIR OWN, OR IN COMBINATION WITH OTHER AESTHETIC OR PERMANENT MAKEUP TREATMENTS - TO TOTALLY TRANSFORM YOUR LOOK IS

TRACIE GILES

TRULY INCREDIBLE.

With an in-depth knowledge of cosmetic enhancements and an ever-growing interest in wider aesthetic treatments, Tracie is pending a Level 7 Post-Graduate in Aesthetic Practice - the highest speciality qualification as recognised by Ofqual - and now offers a wide range of Aesthetic treatments at her Knightsbridge clinic.

Book a client-focused consultation with Tracie to explore what Aesthetic Treatments will work for you. Find out how to manage skin ageing, contour the face, transform your appearance, and discover our selection of the most up to date and clinically proven 'visible difference' treatments.

Erase & Blur Facial Lines and Wrinkles

Anti-Wrinkle Injections help to relax facial muscles and reduce the appearance of fine lines and wrinkles, for a fresh, natural, more youthful appearance!

Anti-Wrinkle injections with Botulinum Toxin have been used in cosmetic medicine for several decades. They are proven to be very safe and incredibly effective. This non-surgical treatment can alter your appearance with little to no downtime after just one session. Anti-Wrinkle Injections can also be used to treat hyperhidrosis, to slim the jawline, or to lift the brow and neck areas.

JAWLINE

FOR A NARROWER. **PREVENT** MORE DELICATE **SWEATING & EASE DISCOMFORT**

Excess-Sweat Injections are an effective, non-invasive, non-surgical way of treating hyperhidrosis (excessive sweating) under the arms and easing discomfort. Using the same technology as Anti-Wrinkle Injections, Excess-Sweat Injections block the messaging between the nerves and the sweat glands under the armpits preventing the glands being triggered and therefore producing less sweat.

Excess Sweat Injections

APPEARANCE

and this can cause the forehead and brows to sag, making the face look older and more tired. A Brow Lift tightens and refreshes the skin on the forehead, raising the eyebrows, opening the eye area and making the face look treatment also can be used to those just wanting to improve the appearance of their brows.

Plump, Smooth & Lift for a Younger, More Contoured Look

Dermal & Lip Fillers are one of the most popular anti-ageing and facial contouring treatments. A high-quality hyaluronic acid gel is injected into the top layers of the skin to restore volume, hydrate, fill wrinkles, and lift and instantly rejuvenate your appearance.

The beauty of non-permanent fillers is that they can be added to gradually over time, so the facial structure is able to be naturally enhanced as the ageing process occurs.

Treatments Include

- Chin Filler
- Cheek Filler
- Jawline Filler
- Tear Trough Filler
- Lip Filler
- Filler for Nose to Mouth (Nasolabial Folds)
- Filler for Down-Turned Lip Corners (Marionettes)
- Filler for Necklace Lines
- 8-Point Face Lift (7ml + of filler in predefined points to totally rejuvenate and lift the face)
- Anti-Ageing Hand Treatment

Lip Fillers

ENHANCE YOUR LIPS FOR THE PERFECT POUT

Lip Fillers use specially formulated hyaluronic acid injections to enlarge the lips, boost volume, define the contour, and restore symmetry to the mouth - creating the perfect pout!

Lip Fillers are an incredible treatment on their own, but when combined with our Gloss & Go™ Lip Blushing treatment the results can be truly transformational!

Cheek Fillers

ADD VOLUME & ENHANCE YOUR BEAUTY

As we age our cheeks start to flatten, resulting in the loss of the youthful contour. Cheek Fillers involve a series of small dermal filler injections used to increase the volume around and above your cheekbones, contouring the face and creating a more defined looking bone structure, and by injecting volume under the skin, it smoothes fine lines and wrinkles.

Jawline Filler

CONTOUR THE JAWLINE & FRAME THE FACE

Jawline Filler is a simple, safe and effective treatment for high-definition contouring of the jawline to create a jawline that frames the face.

Using a series of dermal filler injections administered into the jawline we can sculpt and reshape the jaw, creating balance and symmetry by lifting the jowls and adding definition to the jawline.

Tear Trough Filler

SAY GOODBYE TO **DARK CIRCLES & TIRED EYES**

One of the early signs of ageing is a hollowing in the tear trough, and the impact gradually becomes more prominent.

Tear Trough Fillers work by using Dermal Fillers to replace lost volume under the eye in the tear trough, instantly lifting and revitalising this area, softening the tear trough and restoring a more youthful appearance.

Chin Fillers

CONTOUR & DEFINE A POWERFULLY THE CHIN

Chin Fillers are a safe and effective treatment to correct a weak or recessive chin and adjust the facial profile. This treatment has increased in popularity in recent years, mainly due to the rise in facial contouring.

We inject high-quality hyaluronic acid gel into the chin to balance the face by lifting, contouring, softening, and adding more definition to the chin.

8-Point Facelift

SURGICAL FACELIFT

the face and restores volume, giving a younger, more lifted appearance.

The 8-Point Facelift can produce a transformative result, but without the cost, downtime or risks involved with surgery.

DISSOLVE UNWANTED DERMAL

FILLER

Filler Dissolving

If you have had filler treatments and are not happy with how they look or have lumps or nodules. the treatment can be reversed.

Fortunately, hyaluronic acid can be dissolved using an enzyme called hyaluronidase a prescription-only medicine that can be injected into the area filler has been placed, dissolving any filler in that area.

ANTI-AGEING NON-

Also known as the 'Liquid Face Lift', the 8-Point Face Lift is an innovative, non-surgical face lift that subtly sculpts and contours

dermal fillers to create an instant lift, improving skin quality and texture, and restoring a youthful appearance to the hands by creating volume that has been lost due to natural ageing.

Profhilo M

Effortlessly Dissolve Stubborn Fat

Target Areas Include

- Stomach
- · Hips or 'saddle bags'
- Thighs including inner thigh area
- Knees
- Buttocks
- · 'Bingo wings' upper arms
- · Double chin

Aqualyx[®] is used to dissolve stubborn pockets of fat around the face or on the body, which remain resistant to diet or exercise.

Sometimes all the exercise and dieting in the world does not seem to get rid of fat in certain areas.

This can be incredibly frustrating and impact your confidence and self-esteem.

Aqualyx® Fat Dissolving Injections are a great option to tackle stubborn fat resistant to diet or exercise, literally dissolving the fat and leaving the area toned and in-balance with the rest of your face or body.

Award-Winning Injectable Anti-Ageing Treatment

Profhilo[™] is an award-winning anti-ageing treatment specifically developed for rejuvenating and tightening loose and sagging skin, creating a firmer and more lifted look.

This treatment uses patented technology engineered for 'skin remodelling', stimulating the production of both your natural collagen and elastin to restore firmness, renew your skin from within and recover a more youthful glow.

NATURALLY IT'S A CHOICE, SOME OF US LIKE TO GROW OLD GRACEFULLY AND THAT IS TO BE APPLAUDED BUT MANY OTHERS WANT TO LOOK 'TIMELESS' AND FOR THESE PEOPLE I CAN MAKE A REALLY POSITIVE DIFFERENCE.

TRACIE GILES

This Treatment Can Help To

- Increase skin firmness and elasticity
- Tighten and lift skin
- Improve skin tone and texture
- Rehydrated skin
- Restore radiance
- Smooth and rehydrate thin and sagging skin

Tighten Unwanted, **Excess or Loose Skin** and Wrinkles

The Non-Surgical Blepharoplasty, also known as a Plasma treatment, is a safe, simple, non-invasive treatment designed to tighten unwanted, excess or loose skin.

The Non-Surgical Blepharoplasty or Plasma treatment harnesses thermal energy, rather than a laser, to resurface the skin, safely and instantly tightening the skin and stimulating collagen production. In turn this produces the effects of lifting, reduction of wrinkles, rejuvenation and tightening of the skin, improving elasticity and anti-ageing.

This is an exciting alternative to the highly invasive Surgical Blepharoplasty, which comes with many complications and can involve long periods spent in recovery, and will mean less down time and less cost, with results lasting up to 5 years.

At Tracie Giles London we use only the safest, tried & tested methods for our Non-Surgical Blepharoplasty treatment - PlasmaLinear or JETT Plasma.

Proven To Combat...

- Wrinkles
- Heavy Bags Under Your Eyes
- Drooping Eyelids

Get the VI Peel **Treatment**

The VI Peel is the latest in chemical skin peels and is already extremely popular thanks to its high-impact, minimal downtime approach.

The VI Peel is a synergistic blend of powerful acids, retinol, vitamins and minerals that goes beyond a general resurfacing peel to treat specific conditions.

This treatment works on a cellular level, encouraging the body to build up collagen, removing damaged skin, and refining the top layer of skin to give you a smoother, radiant, more youthful appearance.

It is one of the few peels available which is suitable for all skin types and ethnicities.

TRACIE AND HER TEAM ARE AMAZING. THE MINUTE YOU ENTER THE BUILDING YOU ARE LOOKED AFTER BY FRONT OF HOUSE AND ALL THE TEAM ARE TRAINED TO THE HIGHEST LEVEL. YOU NEVER FEEL HURRIED AND YOU WILL NEVER LEAVE FEELING DISAPPOINTED. THE RESULTS ARE AMAZING. I WOULDN'T GO ANYWHERE ELSE!

CLAIRE G, TRACIE GILES LONDON CLIENT

Crows Feet

Fight The Ageing Process

Microneedling is a safe, minimally invasive, non-surgical treatment that works to improve the condition of the skin from within by boosting the skin's own healing mechanisms. It can improve the skin's overall health as well as treat various conditions, the outcome will leave you with beautiful youthful skin.

If you suffer from common problem skin conditions such as acne scarring, pigmentation, stretch marks and fine lines and wrinkles, or are just looking to refresh and rejuvenate your skin – Microneedling is an amazing treatment option for smoother, brighter, healthier, younger-looking skin.

Conditions Include

- Acne Scars
- Brown Spots
- Stretch Marks
- Pigmentation
- Fine Lines & Wrinkles
- Sun Damage
- Enlarged Pores
- Loose Skin

My Face Project

In a global first, My Face Project combines bespoke Permanent

Makeup with non-surgical aesthetic

treatments to push the boundaries

of beauty even further.

Working with you, our expert team will create a completely bespoke treatment plan blending Aesthetic and Permanent Makeup treatments to achieve truly unbelievable results.

CREME - SUPERGRANGED ACTIVE RESCUENT

Powerful Anti-Ageing and Post-Treatment Recovery Serum

Blended with a unique combination of 5 high performance active ingredients, Crème Rescue Serum is a supercharged skincare product designed to transform your skin!

Acne & Acne Scarring

Crème Rescue is a dual-action serum, for use as a powerful anti-ageing serum when used as part of your everyday skincare routine, protecting against environmental and pollution damage, ageing, and on any irritated or compromised skin; and after any cosmetic aesthetic treatment (permanent makeup, laser, injectables, peels, etc.) to speed up healing and enhance the results of your treatment.

Crème Rescue Serum is also proven to target problem skin conditions like acne & acne scarring, rosacea, psoriasis and eczema.

One of the most innovative skincare products currently available, Crème Rescue is a musthave addition to any skincare routine.
